## ANTHROPOLOGY PROGRAM

---

### PROSPECTUS

Anthropology is the holistic study of humankind. The discipline is distinctive among the human sciences and humanities in that cross-cultural (comparative inter-regional or global), ecological, and evolutionary perspectives are commonly employed.

The four major divisions of anthropology are:

- archaeology
- cultural anthropology
- anthropological linguistics
- biological (or physical) anthropology.

A popular misconception of anthropology is that it is the study of ancient remote or exotic living people, but anthropology, in fact, is concerned with studying the cultural, social, and biological configurations of all human societies, past and present.

Given Western Micronesia's geographic, historical, socio-cultural, and human biological realities, anthropology is a particularly appealing and relevant program of study at the University of Guam. The ever-changing dynamics of Guam's contemporary multi-cultural society and the presently under-appreciated heritage (historical, cultural, linguistic, and biological) of the indigenous peoples of the Marianas and Micronesia situate the University of Guam as an ideal setting for faculty and students to engage in anthropological, collaborative, and transdisciplinary research.

The Anthropology Teaching Laboratory (HSS-110) and both microfiche and online web-based access to the Human Relations Area Files at RFK Memorial Library are some of the resources available. The program is focused on the study of anthropology of the ocean, culture change, and the maritime and cultural history and adaptations of indigenous Pacific populations.

Faculty members are doing research in maritime archaeology, linguistic anthropology, cultural anthropology, power, ethnohistory, and visual anthropology.

### LEARNING OUTCOMES

Graduating students must be able to demonstrate their understandings and competence in applying the dimensions and determinants of human cultural, archaeological, and linguistic diversity.

Graduating anthropology students should successfully demonstrate the ability to:

1. Understand the current issues and debates in the sub-fields of anthropology;
2. Utilize the concept of cultures as a fundamental organizing concept of anthropology;
3. Articulate knowledge of the history and theories of anthropology;
4. Collect anthropological data according to generally accepted professional anthropological practices;
5. Analyze anthropological data in both oral and written forms.

The mission of the CHamoru Studies Program is to revitalize and sustain a CHamoru-literate community through the development of a steady cohort of proficient CHamoru-speaking and -writing graduates. It shall include in-depth studies of CHamoru language, culture, and CHamoru-based systems of knowledge. Such studies shall be articulated in relation to community engagement.

The CHamoru Studies Program develops students' critical thinking and appreciation of cultural diversity, human and indigenous rights, and social and communal responsibility. Creative capabilities in the areas of oral and written literary expression are developed. CHamoru Studies is an interdisciplinary program that covers a range of subjects,

examining knowledge pertaining to CHamoru identity and culture that draws on courses such as CHamoru Language, Anthropology, Biology, Literature, Geography, History, Political Science, Social Work, and Psychology.

### LEARNING OUTCOMES

Students enrolled in the CHamoru Studies Program will successfully demonstrate the ability to:

1. Express ideas and analyses fluently and persuasively in both written and oral forms and in both the CHamoru and English languages;
2. Examine major cultural, historical, political, ecological, and literary themes, developments, and events in the Mariana Islands;
3. Evaluate relevant issues in CHamoru Studies within local and global contexts; and
4. Create original and independent work, including formulating and proposing a topic of study, locating appropriate evidence, synthesizing information logically and orderly, and conveying findings clearly.

### TRACKS, MINORS & CERTIFICATES

#### TRACKS

*Note: Refer to the Degree Requirements tab to see the courses required under each track, minor, or certificate.*

#### CHamoru Studies

This track develops students' critical thinking and appreciation of cultural diversity, human and indigenous

rights, and social and communal responsibility. Creative capabilities in the areas of oral and written literary expression are developed. This track covers a range of subjects, examining knowledge pertaining to CHamoru identity and culture that draws on courses such as CHamoru Language, Anthropology, Biology, Literature, Geography, History, Political Science, Social Work, and Psychology.

### CHamoru Studies for Education

This track helps students prepare for careers in teaching CHamoru language and culture in the public school system while meeting the needs of teacher preparation and certification for the Guam Department of Education. This track follows the requirements for Initial CHamoru Certification as set forth in Public Law 31-50 and has been reviewed by the School of Education and GDOE.

## MINOR

### CHamoru Studies

Refer to the Degree Requirements tab for courses.

## CERTIFICATES

### CHamoru Studies

Refer to the Degree Requirements tab for courses.

### Island Wisdom: Foundation in Micronesian Seafaring

This certificate balances Western-based curriculum with an Indigenous learning environment, encouraging the perpetuation of traditional skills and inspiring scholarship related to technologies, and innovations, aligning with UOG's initiative to be recognized as a research institution centered in Island Wisdom. Students will learn Micronesian canoe building and traditional navigation from a *Pwo Palu* (Master Navigator).

A native Micronesian perspective is emphasized in this certificate program so that student are prepared to practice and provide voice to the Indigenous Micronesian experience, ways of knowing, and ways of life. Students

will develop Indigenous knowledge and technical skills related to the building of canoe structures, discuss roles and responsibilities current embers of a Micronesian community have in sustaining traditional ways of life, and examine Micronesian seafaring and navigation as a sustained ecosystem in which people, natural resources, and traditional/sacred knowledge are interconnected and interdependent.

## **COMMUNICATION & MEDIA PROGRAM**

---

### **PROSPECTUS**

#### **The Field**

As an academic field, communication focuses on the process of message use and generation within as well as across various contexts, cultures, channels, and media. The study of communication focuses on its effective and ethical practice. While people are born with the physical ability to talk, communication skills have to be developed to ensure personal, academic, and professional success.

#### **Relevance and Demand**

According to various projections on the fastest growing careers, communication skills will be part of basic competencies in many occupations well into the next century. In addition, executives in leading companies indicate that college students need better communication skills as well as the ability to work in teams and with people from different backgrounds.

#### **Why UOG?**

The Communication & Media Program at UOG offers a major designed to prepare professionals in journalism, public relations, digital cinema and multimedia, and other communication-related areas.

It houses an iMac lab, where students learn to use the latest Adobe Cloud software applications, such as Premiere Pro, Photoshop, After Effects, Audition, InDesign, and XD, among others. Students also have access to digital cinema hardware, including Red Epic and other professional cameras.

The program offers several opportunities for students to develop their skills. Students can produce news for [Triton's Call](#), a print and online newspaper; Triton TV News, an online TV news platform; and The Tide, a TV news magazine. Students also help organize public forums and the annual University of Guam Film Festival, which help to engage the community.

The program also serves the university community with General Education and elective courses for all majors and offers a minor, an ideal complement for any major that requires substantial skill in interpersonal, public, or mass communication.

#### **Career Possibilities**

Our graduates have gone on to pursue graduate degrees in fields such as communication, business, public administration, cinema, education, and law, among others, and have experienced successful careers and leadership positions in news, entertainment media, public

relations, advertising, marketing, government, nonprofit management, higher education, and other fields.

## LEARNING OUTCOMES

Upon successful completion of the Communication & Media Program, the student should be able to demonstrate the ability to successfully:

1. Articulate the theories of perception, interaction, and the creation of shared meaning in individual, group, intercultural, mass and digital communication settings;
2. Analyze the effects of media messages and form on the individual and society;
3. Apply basic logic, reasoning, ethics, and interpretation in producing and consuming messages;
4. Construct and express a cohesive idea -- across multiple platforms -- drawn from multiple sources of information that arrives at a rational conclusion expressing a defensible point of view; and
5. Utilize contemporary and understand developing communication technologies.

## TRACKS

### COMMUNICATION & MEDIA TRACKS

The Communication & Media major consists of 24 hours of core courses and 24 hours of track-specific courses, with each track offering specific choices and a three-hour elective. The core includes foundation courses in mass media, media writing, film and television production, communication theory, intercultural communication, a professional internship, and a senior-level capstone course (CO-491). All Communication & Media majors must meet the requirements of one of three tracks and should seek [faculty advisement](#) within their respective track.

#### Communication Studies

The Communication Studies track requires dynamic personal involvement. Students create and test their ideas, develop individual abilities, and gain competence in a variety of communication settings. Students acquire both theoretical knowledge and practical training in developing messages for various groups, analyzing audiences, and designing campaigns.

#### Public Relations

The Public Relations track prepares students for careers that deal with the image of organizations in the public and private sectors. Students acquire both theoretical knowledge and practical training in developing messages for various groups, analyzing audiences, and designing campaigns.

#### Digital Cinema, Media, & Journalism

The Digital Cinema, Media, & Journalism track focuses on developing students' knowledge of multimedia news reporting and understanding of cinema. Students can choose to emphasize studying news events in the context of larger social issues and interpreting these insights for a wide audience. Those more interested in cinema may develop production skills in narrative and documentary formats. In addition, this track provides opportunities to enhance graphic art and motion graphic skills for those looking to work in advertising. Graduates of this track are

equipped with a wide range of skills that prepares them for the dynamic changes in journalism, advertising, and/or digital cinema production.

### COMMUNICATION & MEDIA MINOR

The Communication & Media minor is particularly suited for students majoring in Public Administration, Business, Education, Agriculture, Nursing, and English who need a strong background in communication skills for their professional work. Faculty advisors will help you tailor the minor to fit your career goals.

*Refer to the Degree Requirements tab to see the courses required for the minor.*

## ENGLISH PROGRAM

### PROSPECTUS

#### The Field

The academic field of English provides students with a solid foundation in the humanities, expertise in written and oral communication, and sustained training in analytical and critical thinking. It forms an intellectual basis for graduate study in English and other areas of scholarship. In addition, the English major provides excellent preparation for professional careers in a wide variety of fields.

### Options at UOG

The English major is comprised of three **emphases**, each sharing courses with the others while focusing on a particular field of study: 1) the Literature Emphasis; 2) the Linguistics/ESL Emphasis; and 3) the English for Education Emphasis.

The division also offers two **minors**: English and Writing.

## Preparation for Teaching

Students planning on teaching should link the English major of their choice with a second major in Secondary Education from the School of Education (See [Secondary Education, Option A.](#)).

Preferably during their freshman year, they should review both English and the [School of Education / Secondary Education](#) sections of the Catalog. They should also sign up for two [advisors](#), one from their content major — English or Linguistics — and the other from Education.

All students preparing to teach must plan on passing PRAXIS I (for entry into the School of Education) and PRAXIS II prior to acceptance for student teaching and internship.

## LEARNING OUTCOMES

Upon successful completion of any of the English major's emphases, the student will demonstrate the ability to:

1. Understand the concepts, structures, and functions of human languages;
2. Describe the aesthetic, rhetorical, structural, and multicultural qualities of texts, as well as critical and historical approaches to those texts;
3. Prepare, organize, and deliver effective oral presentations for a variety of purposes and audiences;
4. Conduct substantive research using discipline-appropriate techniques, methodologies, and environments (digital or non-digital), producing or locating valid data and source materials; and
5. Write coherent, discipline-appropriate essays and research papers, documenting properly to avoid plagiarism.

## EMPHASES

### ENGLISH MAJOR EMPHASES

All English majors must meet the requirements of one of these emphases and should seek [faculty advisement](#) within their respective track:

- English for Education
- Linguistics/ESL
- Literature

### ENGLISH MINORS

- English
- Writing

*Note: Refer to the Degree Requirements tab to see the courses required for each emphasis and minor.*

## DEGREE REQUIREMENTS

### MAJOR REQUIREMENTS

All declared English majors must have a cumulative GPA of 2.67 (B-) or better in major courses in order to graduate with a Bachelor of Arts in English. English majors must receive a grade of “C” or better in any English major course. All English majors must complete (or demonstrate proficiency through a [Course Waiver](#) or [Credit by Examination](#)) a two-semester sequence of a modern language, totaling eight credit hours.

### LITERATURE EMPHASIS REQUIREMENTS (42 CREDIT HOURS)

Literature majors must complete (or demonstrate proficiency through a [Course Waiver](#) or [Credit by Examination](#)) a two-semester sequence of a modern language, totaling eight credit hours. These courses should be taken in partial fulfillment of the Uniquely UOG and Direction Building [General Education requirements](#).

### The program

The Fine Arts Department offers a major or minor in Fine Arts. The major allows a choice of three tracks: [Art](#), [Music](#), or [Theater](#). Within each area, the student will gain fundamental knowledge and skills as well as active participation in the creative process. In all areas, the emphasis is on the creation of the work.

No prerequisites are necessary to enter any of the tracks with the exception of some necessary auditions for private lessons and some ensembles.

4. Demonstrate mastery of one artistic skill in public displays and performances using professional production values from coursework.

## Career possibilities

People of Guam and all of Micronesia have a love for the arts in all its diversity, and employment opportunities in the arts are vast and far beyond the obvious performing artist. Students may follow their bachelor's with a graduate degree, or they may become teachers, music conductors, theatrical directors, tattoo artists, mural painters, playwrights, composers -- the list is nearly endless. Musical theater is particularly popular on Guam and is a great example of the combination of theatrical, visual, and musical arts.

## Why UOG?

A unique aspect of UOG's Fine Arts Program is the combination of art, music, and theater into one major. The Fine Arts major has three courses (9 credits) that are taken by students in all three tracks. This contact brings awareness of the creative process throughout the arts and encourages collaboration. The program promotes growth in personal experience, artistic self-expression, and stimulates exploration of the role of the arts in society. As a result of the historical, interpretive, and creative components of the Fine Arts Program, students are personally challenged to achieve proficiency in their chosen area and appreciation for the creations and presentations of other artists.

## LEARNING OUTCOMES

By the end of the Fine Arts Program, students will effectively demonstrate the ability to:

1. Using common terms, techniques and methods of expression in the artistic languages of performing and visual arts, analyze the creations and presentations of other artists;
2. Understand the history of one or more art, music or theatre styles;
3. Apply knowledge of the interrelationship of the arts and its influence in society to creative processes; and

## TRACKS

### FINE ARTS TRACKS

This major has three core courses (9 credit hours) that all Fine Arts majors will be required to take:

- FA-231 Survey of the Arts
- FA-331 Philosophy of the Arts
- FA-431 Survival in the Arts.

Majors will track into one of the following three areas:

#### Art

The Art concentration focuses on instruction in the visual arts, including, but not limited to, painting, drawing, printmaking, sculpture, ceramics, photography, digital art, art history, and exhibition design.

#### Music

In the Music concentration, each student focuses on a particular instrument or voice and participates in ensembles and a rigorous study in music theory, history, conducting, and other necessary proficiencies.

#### Theater

Theater is a collaborative performing art with actors and actresses and includes set construction, play production, directing, lighting design, scene design, and more.

*Refer to the Degree Requirements tab to see the courses required for each track.*

### FINE ARTS MINOR

The Fine Arts minor includes courses in the appreciation, history, and practice of the arts. The minor is intended for students with an interest in the fine arts who would benefit from including art, music, or theater in their degree studies. Students who minor in Fine Arts will discover the importance of the arts in society and their personal lives.

*Refer to the Degree Requirements tab to see the courses required for this minor.*

## DEGREE REQUIREMENTS

### MAJOR REQUIREMENTS

#### ART TRACK REQUIREMENTS (60 CREDIT HOURS)

Each student's program will be developed with an advisor from the Visual Arts faculty. It is strongly recommended, although not required, that Art Track majors select an area of emphasis consisting of 9–18 credit hours in any of the studio areas: painting, sculpture/ceramics, or printmaking. The Art Track major is required to mount a senior exhibit.

### GEOGRAPHY PROGRAM

### PROSPECTUS

The Geography Minor Program offers students a series of interdisciplinary, related courses that focus on place and the environment by using spatial perspective. The geography curriculum provides hands on as well as theoretical knowledge and skill in social, economic, cultural, physical and environmental understanding of the world and world's regions. Geography augments all academic majors at UOG and bridges the physical sciences with the humanities and the social sciences. Special emphasis is placed upon sustainability and culture in the Micronesian region. This minor is designed to enhance career preparedness for all majors, including education, health, business, social and physical sciences. The developing GIS certification program is under development to serve the community as well as students.

### LEARNING OUTCOMES

The Geography Minor is designed to achieve the following student outcomes:

1. Physical geography: Explain and analyze knowledge of facts, functions, and processes of complex earth systems, as well as the methods and techniques used to study these systems.
2. Human geography: Specify complex and changing demographic, population, political, economic, cultural, and environmental patterns within a global context.

3. GIS/Mapping: Understand and apply analytical methods (e.g., map reading, statistics, and advanced geospatial technologies) to geospatial phenomena.
4. Environmental synthesis: Synthesize, evaluate and predict changing human and physical interactive Earth patterns in a spatial environmental framework with special emphasis on the Asia Pacific.

## HISTORY PROGRAM

---

### PROSPECTUS

#### The Field

Indispensable to the educated individual, an understanding of history embraces both the development of states and social and cultural institutions. As the story and interpretation of human experience and achievements, history gives perspective to related subjects in the humanities and social sciences.

#### Usage and Careers

Students may major in History to gain historical knowledge, to acquire the historical method, to pursue research interests, or to prepare for a career in teaching, the professions, or government service.

#### Why UOG?

The faculty of UOG's History Program seek to prepare students for citizenship and leadership in the community. They also seek to develop programs to serve community needs in the areas of social and economic development, history, culture, and social problems.

The History program offers courses for either a general knowledge of the history of civilization or for a special knowledge of particular topics and limited time periods.

A Bachelor of Arts degree may be obtained with a major or minor in History.

### FACULTY

#### Jose Edgardo L. Aban

Assistant Professor of Geography  
College of Liberal Arts & Social Sciences  
(671) 735-2870  
[abanj@triton.uog.edu](mailto:abanj@triton.uog.edu)

No additional language requirement exists for students majoring or minoring in History. Majors, however, are encouraged to complete at least two years of a relevant language.

### LEARNING OUTCOMES

Upon completing a bachelor's in History, students will be expected to:

1. Be knowledgeable of major historical themes, developments, and events;
2. Read, interpret, and evaluate historical evidence carefully and analytically;
3. Develop skills in conducting independent historical research, including the ability to define a historical problem, locate appropriate evidence, organize information logically, and articulate findings clearly; and
4. Express their historical analyses clearly and persuasively both in written and oral forms.

## TRACKS

### HISTORY TRACKS

All History majors must meet the requirements of one of the following tracks and should seek [faculty advisement](#) within their respective track:

#### History

The History track emphasizes the accumulation of in-depth knowledge in multiple fields of historical inquiry as well as considerable training and practice in historical research, analysis, and writing. This track is recommended for students who plan to work in professional fields that require research, writing, and analysis or for students who plan to use the history degree as a step toward law school or graduate studies in fields such as history, anthropology, English literature, political science, or business.

#### History for Education

The History for Education track consists of similar course requirements to the History track but additionally ensures that students acquire the knowledge needed to meet the national content standards for social studies in secondary education. Students will complete coursework in the fields of history, political science, and geography. Students who choose this track should double major in [Secondary Education](#), complete the BA + program, or obtain a Master of Arts in Teaching after graduation.

## JAPANESE LANGUAGE PROGRAM

## PROSPECTUS

Language reflects the culture of a society. Basic cultural assumptions, such as ways of thinking, perceiving, communicating, problem solving, and behaving, are manifested in a society's language. Through the study of a foreign language, students learn to understand different patterns of communication and gain cultural sensitivity and a global perspective.

The College of Liberal Arts and Social Sciences offers various language courses to fulfill the General Education

modern language requirement. The college also offers a minor in the Japanese language. Among the modern languages offered are lower-division courses in CHamoru, Chinese, Chuukese, French, German, Japanese, Korean, Pohnpeian, Spanish, and Tagalog. Upper-level courses in CHamoru are also offered. After taking four semesters of the same language, a student can expect to achieve proficiency in reading, speaking, and writing the language.

The General Education modern language requirement may be satisfied by demonstrating first-year language proficiency in one of four ways:

1. Pass one semester of a language (other than English) from courses offered at UOG.
2. Transfer the equivalent of one semester of a language (other than English) from an accredited institution of higher learning.
3. Submit to the dean of the College of Liberal Arts and Social Sciences proof of a) being raised and receiving at least a primary education in a language-other-than-English environment or b) the ability to communicate both orally and in writing in that language.
4. Request credit by examination as per the University's policy.

## PHILOSOPHY PROGRAM

### PROSPECTUS

#### The Field

Philosophy is the discipline that engages in a critical inquiry into the most fundamental questions of humanity: What is truth? What is knowledge? How should I live? Answering these questions requires a critical, yet sympathetic, mind to understand a broad range of perspectives.

#### Relevance and Demand

Philosophy prepares students to become strong thinkers and provides students with a set of intellectual skills -- including reading, writing, and oral presentation skills -- that can be applied to problems in their everyday lives and at work.

Philosophy also acts as an excellent complementary major to a range of courses of study, offering a rigorous theoretical perspective on topics in science, business, medicine, legal studies, literary studies, and the study of history and society. For this reason, no matter what else students study at the University, philosophy provides essential skills that allow students to approach their work in a more careful, rigorous, and engaged way.

#### Why UOG?

The Philosophy Program at the University of Guam has an especially strong focus on preparing students to:

- analyze problems imaginatively and sympathetically, from a range of points of view, including the points of view of those from very different cultural backgrounds;
- reason about complex issues; and

- express their ideas carefully and clearly.

Graduates of the Philosophy Program are typically open-minded and thoughtful individuals who can solve even novel problems in a rigorous and creative manner. The skills cultivated in our program are highly sought-after in a wide range of roles and by the admissions committees for all graduate degrees, including medicine, law, and business. In other words, no matter what students plan to do post-graduation, a degree in philosophy will provide the tools to do it more successfully.

## **PROGRAM LEARNING OBJECTIVES**

By the end of a philosophy degree, students will be able to:

- justify positions with reasoned argument in a rigorous way;
- express themselves orally and in writing precisely and clearly;
- understand and engage with perspectives different to their own;
- analyze real-world problems using philosophical tools;
- reconstruct the positions of authors through the close reading of texts; and
- practice philosophical virtues in their interactions with others.

or influencing decisions, from the international system to governments and non-state actors. Howard Laswell defined politics as “who gets what, when, and how.” Political science analyzes and investigates these power processes and addresses issues like the distribution of public goods and services, military posturing in the region, and the impact of climate change on food security and economic problems.

**Why UOG?:** The Political Science Program at UOG makes understanding political processes and institutions in the United States and the Micronesian and Asia Pacific regions the focus of student learning, discovery, research, service, and extra-institutional collaboration. The program centers Guam as the focal point of our analyses in order to help students understand politics from a multiscalar perspective. The program shares a commitment to critiquing dominant centers and processes of power affecting our island and region, such as colonization, economic development, and militarization as well as providing a basic overview of the scope of political science in general.

The program includes a variety of courses that comprise three main subfields of political science:

- comparative politics
- international relations, and
- American and regional government

It also emphasizes reasoned evaluation of societal principles, analysis of political behavior, and the logical expression of thought.

**Career Possibilities:** A Political Science degree prepares students for careers in government and politics, law, teaching, and business or for graduate studies in a wide range of professional areas.

## LEARNING OUTCOMES

Upon completion of a major or double major in political science, students will have demonstrated achievement of the following program learning objectives:

1. Analyze the political systems found in the United States and Micronesia.
2. Apply theories to the study of domestic and international politics.
3. Compare political systems and processes in different periods, locations and contexts.
4. Design a political research project that incorporates principles of social science inquiry.
5. Interpret the meaning and implications of political speech, text, images, art and acts.

## TRACKS AND MINOR

### POLITICAL SCIENCE TRACKS

All Political Science majors must meet the requirements of one of the following tracks and should seek [faculty advisement](#) within their respective track. *Refer to the Degree Requirements tab to see the courses required for each track.*

#### Political Science

The Political Science track provides students with a range of courses in three major subfields of political science:

- American and regional government
- comparative politics, and
- international relations.

Students acquire theoretical knowledge and develop a set of critical and analytical skills about institutions of government and politics.

#### Government for Education

The Government for Education track focuses on providing students with the knowledge needed to meet the national content standards for social studies in secondary education. Students will complete coursework in the fields of political science, history, and geography with a focus on government and politics. Students who choose this track should double major in [Secondary Education](#), complete the BA+ program, or obtain a Master of Arts in Teaching after graduation.

### POLITICAL SCIENCE MINOR

The minor in Political Science requires 21 credit hours. It is particularly suited for students who need a strong background in government and politics for their professional work or graduate studies.

*Refer to the Degree Requirements tab to see the courses required.*

## DEGREE REQUIREMENTS

### MAJOR REQUIREMENTS

Students must receive a grade of “C” or better in any Political Science course to be credited toward completion of the major. This requirement applies to the 37 credits in Political Science counted specifically toward completion of major requirements: the eight required Political Science courses, plus four elective courses. It does not apply to General Education courses or to generic electives.

## PSYCHOLOGY PROGRAM

---

## PROSPECTUS

### The Field

As a behavioral science, and as a distinct, but integral, part of natural science, psychology links the social and biological sciences. The major areas of psychological study focus on individual human behavior conceptualized as a natural phenomenon; studied by scientific methods, including experimentation; and understood in terms of psychological theories and laws.

### Relevance

The general objectives of the Psychology Program are to increase students' understanding of themselves and others, to enhance the skills of those specializing in related areas of study, and to prepare those pursuing psychology for careers. Within the Micronesian region, in particular, those educated in psychology are able to help address critical issues including drug abuse, domestic violence, and the prevention of suicide.

### Career Possibilities

Psychology graduates pursue careers in mental health and social services, child and family services, substance abuse counseling, residential care, rehabilitation, case

management, and more. Many psychology majors also continue on to graduate study.

## LEARNING OUTCOMES

The student learning objectives for the Psychology Program are articulated with those of the American Psychological Association. Graduating students will demonstrate that they have:

1. Developed a broad and deep knowledge base in psychology;
2. Acquired and can appropriately apply knowledge of psychological research skills;
3. Acquired and can appropriately apply critical thinking skills in psychology;
4. Developed competence in making appropriate applications of psychology;
5. Acquired and can appropriately apply the values of psychology;
6. Developed competence in information and technological literacy;
7. Developed competence in communication skills;
8. Acquired and can appropriately apply sociocultural and international awareness;

- 9.Acquired effective personal development skills;
- 10Acquired knowledge and competence in career planning and development.

### SOCIOLOGY PROGRAM

### PROSPECTUS

#### The Field

Sociology is the scientific study of the causes and consequences of human interaction. The Sociology Program at the University of Guam combines scientific and humanistic perspectives in the study of family patterns and relationships, social change, social movements, community development, and social issues, such as ethnic, religious, political, and gender relations. Sociology is most interested in the diversity of the world, and it is for this world that students must be prepared.

### Career Possibilities

This program equips students with the necessary skills to pursue careers in:

- Research
- Journalism
- Politics and government
- Public relations
- Business
- Counseling
- International aide work
- Criminal justice

- Community development
- Social work
- Public administration
- Education
- Family services

Additionally, this program provides training and a strong foundation for students wishing to pursue graduate degrees in sociology and other related disciplines and for entry-level positions involved with the analysis, interpretation, and evaluation of social behavior, social action, and social institutions.

## Why UOG?

Through studying in one of the three areas of concentration of UOG's Sociology Program — Gender & Family Studies, Social Problems Studies, or Development Studies — students will encounter unique opportunities for both personal and academic growth. In recent years, students have presented research at international conferences; received scholarships and travel grants; participated in international field schools, internships, and service opportunities; and engaged with the local and regional communities beyond the classroom.

The Sociology Program also offers a minor, which students may consider as a complement to their chosen major.

## LEARNING OUTCOMES

Upon completion of a major or double major in sociology, students will have demonstrated achievement in the ability to:

1. Apply sociological principles and concepts to the social world.
2. Evaluate the effectiveness of sociological theories in explaining aspects of the social world.
3. Apply qualitative and quantitative research methodologies in research design, data collection, and analyses in an ethical manner.
4. Explain sociological knowledge through oral and written communication.

## CONCENTRATIONS

### SOCIOLOGY CONCENTRATIONS

Students in the Sociology Program must choose one (or more) of the following areas of concentration and take no fewer than nine credit hours in their area.

#### Gender & Family Studies

The area of Gender & Family Studies focuses on the social dynamics that surround society's definitions of gender and gender identities. It examines the subtle interplay and dynamics of relations between and within the various genders. What does it mean to be female or male in the 21st century? In what ways does culture influence gender? How have gender roles changed over time? Why are gender roles so different throughout our world?

This area of concentration also focuses on one of the most important social groups: the family. How do families function? How do they generate and manage conflict? And in our rapidly changing social world, what new forms of family are emerging that represent diverse societies?

Utilizing the scientific method, students will better understand ways to define families as private and public institutions that are influenced by collective and individualistic cultures. Students will study the ways religion, the state, cultural and racial diversity, social media, and technology construct family structures and their interactions.

Gender and family are inextricably intertwined structures, and it is important to conduct research in the region as these structures continue to transform and adapt to social change.

#### Social Problems Studies

Have you, or someone you know, ever been a victim of a crime? Have you, or someone you know, ever experienced family violence, drug or alcohol abuse, lived in poverty, or been discriminated against? All of these topics, and many more, are considered social problems.

Sociology is a science, and, as such, the way sociology approaches social problems is through research, the

systematic investigation of the world around us. By conducting research on social problems, sociologists strive to better understand social problems and ideally find solutions for these problems.

The objectives of the Social Problems Studies area of concentration are to:

1. provide students with an understanding of the relevant research on social problems, both in Micronesia and around the world, and
2. assist students in developing the ability to design a research study, collect and analyze data, and present their findings in a research paper.

Ideally, students will develop and apply the sociological perspective as they take a new look at the world around them and the social problems that they encounter. Maybe you will be the person to reduce crime and poverty.

#### Development Studies

The Development Studies concentration focuses on the ways in which societies grow and transform. The curriculum allows students to explore the realities and challenges of the modern world, while critically looking at how humanity arrived at this place in history.

Why is there so much wealth and yet so much poverty in the world? How have people in different cultures responded to the challenges they face? What can indigenous people teach us, and how can we empower communities to take charge of their own destinies? Development Studies addresses these and many more questions. The framework is grounded in the processes, policies, and practices of development with a particular focus on sustainability, drawing on Indigenous philosophy.

A unique focus on the application of learning outcomes means that students will graduate with:

- a comprehensive understanding of the history and key concepts of development work;
- the skills to lead transformational efforts;
- the capacity to demonstrate initiative, leadership, and originality in identifying challenges and opportunities for our society; and
- the ability to understand global trends and challenges communities face and how they can contribute to the welfare of these communities.

## **WOMEN AND GENDER STUDIES PROGRAM**

---

### **PROSPECTUS**

The Women & Gender Studies Program is an interdisciplinary minor and certificate program designed to provide students with a gender-focused curriculum that fully incorporates the concept of gender and is responsive to the issues, experiences, research, and discourse of multiple gender identities in Guam, within Micronesia, and throughout the global community.

The Women & Gender Studies program covers a wide range of contemporary topics dealing with the processes, trends, and explanations of family, women, and gender in our diverse society. The focus of the program is to aid undergraduate students in their understanding and development of major theories, issues, and research from an interdisciplinary perspective. The program is designed to provide students with the tools and abilities to assess, discuss, research, analyze, and write about change throughout the region; generating pathways to research careers.

Students will graduate with the skills needed to pursue careers in:

- Advocacy
- Business
- Community Development
- Counseling
- Education
- Government
- International Aide

- Journalism
- Media Literacy
- Research Associations
- Social Services
- National Leadership

Additionally, the Women & Gender Studies program provides training and a strong foundation for students wishing to pursue graduate degrees in Women & Gender Studies and other related disciplines.

One of the major strengths of the program is the Regional Research Center. The Women & Gender Regional Research Center supports the efforts of STEM (science, technology, engineering, and math); BUILD EXITO (research, mentoring, and career development); and the Micronesian Studies Graduate Program. The Women & Gender Studies program is for students who are interested in gender and regional research in the social, economic, cultural, and political achievements of Pacific Islanders and indigenous women, whose contributions influence and contribute to the advancement of women throughout the region. Emphasis is on undergraduate student research.

The program has five main objectives:

1. To offer an interdisciplinary program that will broaden understanding of the significance of gender in the lives, identities, activities, opportunities, and concerns of multiple gender identities in Guam, in other areas of Micronesia, and across cultures.

2. To provide degree students with a women- and gender-focused curriculum that will enhance their major field or study by highlighting issues, experiences, research, and discourse relevant to women locally, throughout Micronesia, and in a global context.
3. To offer non-degree seeking students the opportunity to gain knowledge of women- and gender-centered teaching and research that is responsive to the needs and interests of multiple gender identities in the multicultural community of Guam and culturally diverse Micronesian region within a comparative framework.
4. To provide professionals, as well as non-professional community-based individuals, with a series of gender-oriented courses and workshops that will empower and enrich their own lives and sense of identity as well as that of their families and communities.
5. To further establish the Regional Research Center that will investigate the needs and issues critical to people in Guam and throughout the Pacific Islands, which will serve to increase gender parity locally and internationally.

## LEARNING OUTCOMES

Upon the completion of the Women & Gender Studies minor or certificate, students will demonstrate the ability to:

1. Understand and critique the significance of gender in the lives, identities, activities, opportunities, and concerns of multiple gender identities locally, regionally, and transnationally.
2. Analyze how gendered identities intersect with social media, the state, religion, the economy, ethnicity, race, class, and sexual orientation and how systems of inequality and oppression operate and are sustained.
3. Examine theoretical and practical connections between gender studies and students' major field of study by highlighting issues, experiences, research, and discourses relevant to Guam, Micronesia, and the global community.
4. Engage in research mindful of the needs and issues critical to cultural diversity in Guam, Micronesia, and the Pacific Islands, which will increase regional scholar-based partnerships, interpersonal skills, and leadership roles for students.
